AVOX Systems

N°180508

The AVOX Systems 5500 Series is a high-performance portable that provides a constant flow breathing system for up to 3 passengers or crew members. It is intended to supply supplementary or first aid oxygen.

Ideal as a walk-around, the unit is self-contained, lightweight, and easy to operate. A convenient shoulder strap enables the user to have complete mobility. The 5500 can be used with any permanent or disposable rebreather constant flow-type mask. The DOT approved cylinder capacities range from 4.3 to 115.0 cubic feet. Masks are not included with the assembly.

ORDERING INFORMATION

5500 is a basic model number. This chart illustrates the combinations that are available. To order, fill in the necessary building block numbers and letters needed to indicate the complete part number. Note that the “Constant Flow Outlet Setting” column will require two or three letters if two or three outlets are required. For further information regarding cylinders, outlets, masks, etc., see the appropriate catalog sheet.
